

BE YOUR BOSS

FINAL PUBLICATION Best practices collected in supporting youth entrepreneurship in Europe

SPAIN

"Incubator con Valores" is the first incubator aimed at people at risk of **social exclusion** supported by businesses. It offers mentoring and training by a network of volunteer professionals. The incubator program aims to: provide a network of **professionals** for support, sensitize businesses by involving them, integrate companies in the search for solutions, collaborate with public agencies and social services.

ITALY

"Palestre Digitali" is a project intended for young graduates in humanities, linguistics, economic and social subjects and has more than **1000 students**, mainly female, trained in 10 years. The goal is to enhance digital marketing skills by putting into **practice** the notions acquired during lectures, working individually and in groups in workshops, exercises and project work, in an intensive training course.

POLAND

The "E365 project" seeks to develop educational **opportunities** based on the need to extend entrepreneurial competence and to promote a more supportive business culture in the **European Union**. The main result of this project is a self-directed learning platform planned to help adult learners develop entrepreneurial skills. The platform contains a series of "**Weekly Inspirations**" and "**E365 - daily challenge**".

BULGARIA

The **mission** of the National Business Development Network (NBDN) is to create a new entrepreneurial culture, improve the standard of living through various forms of support for the development of **enterprises**, and ensure greater employment opportunities. Its members work in the design and management of international projects to support **employment**, the competitiveness of SMEs, training and professional retraining.
